Globalstar SAT-550

a good choice for someone needing a basic emergency backup phone

ADVISEMENT: Currently, Globalstar two-way voice and duplex data satellite services are not operating at optimal or peak efficiency because of technical difficulties with the first generation Globalstar satellites. Globalstar has contracted for a new second-generation satellite constellation, which it anticipates taking delivery of beginning in the summer of 2009. Until a second generation satellite network is successfully deployed, Outfitter Satellite recommends that customers consider purchasing Iridium or Inmarsat equipment. Globalstar is currently suitable for users needing short occasional calls originating within the lower 48 US states.

SAT-550 Standard Kit

The Globalstar Sat-550 lets you roam in the US, Caribbean, Canada, Mexico and Europe. It weighs **12.6 oz (9" x 2.6" x 2")**. Its Li-Ion battery supplies **2.5 hours talk time** and 37 hours standby time while in satellite mode. *Includes universal AC charger (110/220 VAC 50/60 Hz) and manual. Note: DC charger and data kit accessories are not available for SAT-550. Options: padded softcase, extra batteries.*

Globalstar GSP-1600

Available in black and yellow.

Globalstar GSP-1600 Standard Kit

The Globalstar GSP-1600 by Qualcomm weighs **13 oz (7.8" x 2.2" x 1.9")** and includes a high performance Lithium Ion battery that gives **3.75 hours of talk time** or 19 hours of standby operation in satellite mode. *Includes universal AC charger (110/220 VAC 50/60 Hz) and manual. Options: watertight Pelican 1150 hardcase with custom foam, hands-free car kit, portable car kit with privacy handset in soft or hard case, cigarette lighter DC charger, solar charger, data kit, and secure voice encryption device.*

GCK-1410 Car Kit for the GSP-1600

This is one of the most popular accessories for the GSP-1600. A GSP-1600 docked in a car kit, has stronger signal reception. If you intend to use your GSP-1600 from inside a car or boat in motion, you should get the GCK-1410 Car Kit. The kit includes a **magnetic mount antenna** with a 15 ft antenna cable. Uses 12 VDC car power. **OPTIONAL Privacy Handset.**

- Microphone and Speaker for hands-free operation
- RS-232 serial data port for internet access

GPDK-1410 Softcased Car Kit

The car kit with privacy handset is also available in a softcase which is easily transported. Just mount your GSP-1600 (not included) into the cradle, plug in the cigarette lighter power adapter, and place the magnetic mount antenna where it has a view of the sky. This system includes both the privacy handset and a hands-free microphone and speaker. The magnetic mount antenna has a 15-foot cable.

Globalstar Car Kit for GSP-1600

GSP-1600 shown but not included.

Globalstar GSP-1700

On back country trips where every piece of gear counts, you can finally pack a satellite phone that is small enough to keep in your shirt pocket! The Globalstar GSP-1700 by Qualcomm weighs **7.2 oz (5.3" x 2.2" x 1.3")**, and its Li-Ion battery gives **4 hours of talk time** and up to 36 hours of standby time (with slotted paging). *Includes universal AC charger (110/220 VAC 50/60 Hz) and manual. Options: watertight Pelican hardcase, noise canceling headset for noisy environments, installation kit with low-profile car antenna and marine antenna configurations, DC charger (6 ft cable), solar charger, USB data kit (4 ft cable), and secure voice encryption device.*

New GSP-1700	Original GSP-1600
30% Lighter: 7.2 oz	13 oz
40% smaller 5.3" x 2.2" x 1.3"	7.8" x 2.2" x 1.9"
Better battery life: 4 hrs talk 36 hrs standby (slotted paging)	3.75 hrs talk 19 hrs standby
Modern features: Standard 2.5 mm audio jack Color screen Lighted keyboard for night use Data Kit works with USB	Data Kit but uses serial port

Globalstar GSP-1700
Available in red, copper, and silver.
Older GSP-1600 shown for size comparison.

Works with your analog phone!

FAU-200 Fixed Site Unit

- RF Power Output: 2 watt maximum (+33dBm)
- Power Consumption: 50 watt maximum at 48 VDC nominal input voltage
- Approx. Dimensions: 20 1/2" x 11 7/8" x 6 7/8"; Weight: 16.1 lb.
- NID box dimensions: 6" x 3.2" x 2.1";
- NID box Weight: 1.2 lb.
- Operational from -22° to 140° F

Globalstar FAU-200 for homes and businesses

The FAU-200 is a low cost Globalstar phone designed to be mounted year round on your building. It can be plugged into standard phone equipment to provide voice communications during emergencies – such as hurricanes – where conventional communication services have failed. The external components should not be exposed to direct salt water spray so if this is expected use a NEMA enclosure. Operates on 100 to 240 VAC 50/60 Hz Wall Power or well regulated 48 VDC. Installation is simple. No aiming or calibration required. *Includes: pole-mounted Fixed Antenna Unit (FAU), telephone interface (NID) box, AC power supply (output +48VDC - 1.0 A), 50 ft power cable, and manual.*
